SECTION 01305 - CONSTRUCTION SCHEDULE

1. PRE-BID CONSTRUCTION SCHEDULE

- 1.1 Time is a critical element of this Project. By entering a bid, the Contractor agrees to adhere to the intermediate Milestone Dates and Dates of Substantial and Final Completion established herein. The Contractor also understands that all work must be performed in an orderly and closely coordinated sequence in order to achieve the specified Milestones and Completion Dates, and the Contractor hereby agrees to perform his work in conformance with the Pre-Bid Construction Schedule established herein, or with the then current and approved Project Construction Schedule.
- 1.2 The Pre-Bid Construction Schedule includes allowances for time lost due to adverse and abnormal weather conditions, other than floods, hurricanes, tornadoes, lightening and other like acts of God. The Contractor understands and agrees that the Contractor shall not be entitled to any extensions of the Contract Time, except as allowed in the General Conditions of the Contract for Construction. The Contractor further acknowledges that the Work may be required to be performed during the winter season, that conditions during this season may be adverse and abnormal, but that such conditions will not be the basis for an extension of the Contract Time.

2. SCHEDULING OF THE WORK AFTER AWARD OF CONTRACT

- 2.1 After award of Contract, or issuance of a Notice to Proceed, the Contractor will meet with the Construction Manager to review the Pre-Bid Construction Schedule, and the overall project plan for construction. Following the above review the Contractor will meet with each subcontractor and supplier to view the detailed plans for performing his Work. Following these meetings and within fourteen (14) days after award of the Contract or issuance of a Notice to Proceed, the Contractor shall prepare and submit for the Construction Manager's approval a Work Schedule providing for the expeditious, timely and practical execution of the Work. The Contractor's Work Schedule shall include activity descriptions and durations for shop drawings, fabrication, delivery and installation. If the Construction Manager so requests, the Contractor shall provide adequate explanation regarding crew sizes, production rates and similar data used to arrive at the durations and sequences.
- 2.2 The Construction Manager shall review the Contractor's Work Schedule, coordinate it with the separate work by other contractors, the Owner and the Construction Manager, and after coordination, shall incorporate it into the approved Project Construction Schedule. The approved Project Construction Schedule shall be issued to the Contractor and the Contractor shall perform his Work in conformity therewith.
- 2.3 The Contractor shall submit proposed schedule revisions and obtain the written approval of the Construction Manager therefore before deviating from the Project Construction Schedule.
- 2.4 The Construction Manager will incorporate approved schedule revisions into the Project Construction Schedule, and shall otherwise update and revise the Project Construction Schedule as the Construction Manager, at his sole discretion, deems necessary.

3. ADHERENCE TO THE SCHEDULE

- 3.1 The Contractor shall start each part of this work on the date designated for start in the approved Project Construction Schedule unless advised by the Construction Manager that the preceding activity is ahead or behind schedule. He shall carry the work forward

Sussex Central High School

expeditiously with adequate forces, equipment and materials, and shall complete each part of his work on or before the date designated in the approved Project Construction Schedule.

- 3.2 If the Construction Manager determines that the Contractor is behind schedule, the Construction Manager shall have the right to require that the Contractor take steps to accelerate his Work. Such steps shall include increases in manpower, equipment and materials as the Construction Manager may deem necessary. If the Contractor fails to comply with the Construction Manager's instructions relating to improved rate of progress, the Contractor may be held in default under the appropriate provisions of the General Conditions of the Contract.

MEMO

DATE: 18 November 2002
TO: All Contractors
FROM: Christian McCone
RE: Sussex Central High School
Updated Project Construction Schedule

Gentlemen:

Attached is a copy of the current Project Construction Schedule for Sussex Central High School. Please review the schedule and ensure that your work will be performed in the sequence and time frame stated.

In accordance with Section 01305 – Construction Schedule, paragraph 2.3, any proposed schedule revisions should be submitted in writing to the Construction Manager. Written approval is required before deviating from the schedule.

If you have any question please feel free to call me at (302) 421-2973.

Sincerely,

A handwritten signature in black ink, appearing to read 'Christian J. McCone'. The signature is fluid and cursive, with the first name 'Christian' and last name 'McCone' being clearly legible.

Christian J. McCone
Project Manager
